

## COMPANY BELIEFS

**AMC** believes in providing quality “processed” solution for the client. **AMC** “process approach” for design excellence and innovation is derived from the conviction that *Architecture* grows from a process of interaction and collaborations between the Owner, the consultants and the contractors.

We intend to respond proactively and deliver practical solutions through the use of innovative design and Information Technology. **AMC** extranet capability and website [www.amc98.com](http://www.amc98.com) provides the platform for 7x24x365 access for both the client and coordination effort.

With the diversity of International and local project experience, qualifications, and expertise, **AMC** objective includes providing quality assurance in the “process”.

We believe in earning the confidence of the client by quality work and sharing the objectives. **AMC** is committed to quality work through “*the process of design and continuous improvement*”.
