Ar. Michael K.K. Chong, AIA, LAM

Bachelor of Architecture
Principal

Michael graduated from Oklahoma State University, Stillwater Oklahoma in 1986. He worked in BSW Architects, Tulsa, Oklahoma until his return to Malaysia in 1993. He was instrumental in the development of CAD system productions of Wal-Mart stores from the 42,000 sq.ft. to the Hypermarket of 220,000 sq.ft.

The success of the Supercenter type stores led Michael's project team to be featured in "The Architectural & Engineering systems" megazine. Wal-Mart's expansion to the international arena led Michael to team up with the construction team of Cifra, the leading retailer in Mexico.

Returning to Malaysia, he joined the design-build team in the monitoring of the Kuala Lumpur International Airport (KLIA) main terminal. This is followed by the Hong Leong Group project, the Kia Peng 3 Office and Service Apartment block, where Michael led the consultant team as the Senior Project Architect.

In 1997, Michael joined Kumagai Gumi Co. Ltd. at the acceleration phase as the Design Manager of the main contractor to complete the Mandarin Oriental Hotel at Kuala Lumpur City Centre (KLCC).

Michael started AMC upon completion of LAM/PAM requirements in 1999. Since then, AMC has designed and completed a series of residential, religious, recreation and commercial projects.

Michael has been a member of the American Institute of Architects since 1990.
